

Harvey Discusses Foreign Plans With Harding and Hughes

Prospective Ambassador Expects to Sail for London Early in May; Herrick Also Visits White House

From The Tribune's Washington Bureau
WASHINGTON, April 2.—The next Ambassador to Great Britain, Colonel George Harvey, conferred with President Harding and Secretary Hughes today regarding policies to be pursued upon assumption of his duties at London. Colonel Harvey was an early caller at the White House, where he was closeted with the President for nearly an hour. Upon leaving the White House Colonel Harvey admitted to newsmen that he discussed his appointment with the President, but declined to give details. The Colonel said it was his impression that his name would be sent to the Senate for confirmation at once upon the opening of the session. He said he had not determined just when he would sail for England.

Official announcement of Colonel Harvey's appointment was made Friday. It has been understood for some time that the appointment was to be made. While in Washington the Colonel is the guest of Senator Brandegee of Connecticut. He will be here until next Tuesday, when he will return to New York. The Colonel plans to return to Washington for further conferences with the President and the State Department before sailing for London. It is probable that he will sail early in May.

Myron T. Herrick, former Ambassador to France, and regarded as a certainty in diplomatic circles here as the next envoy to France, conferred with the President today. Mr. Herrick said he had no comment to make on rumors of his appointment as Ambassador to France. He will be a guest at the White House on Tuesday night at the dinner to be tendered Mr. Viviani.

M. Stephane Lauzanne, editor of the Paris *Matin*, and a prominent French publicist, held a brief conference with President Harding in which he conveyed to the President the sentiment existing in France to-day in relation to numerous policies affecting both countries. The President saw M. Lauzanne at the instance of the French Ambassador, M. Jusserand, and it is understood that the French journalist was able to give the President considerable information having to do with the problems and questions to be discussed by M. Viviani.

Vienna People Get Chateau
Historical Place Will Be Turned Over to Public Use
VIENNA, April 2. Schoenbrunn, the imperial chateau where once dwelt Maria Theresa and where Napoleon Bonaparte planned his 1805 and 1809 campaigns in Austria, will be turned over to the people of Vienna as a public monument and recreation ground. Various other royal estates are to be devoted to the care of war invalids. Belvedere Palace, another noble chateau in this city, may become a gambling casino, according to reports here. It is understood a foreign syndicate is negotiating for its purchase.

Hughes's Note Justified, Says Russian Trade Union

English Pact Condemned as a Makeshift; American Friendship Affirmed

PARIS, April 2 (By The Associated Press).—The Union of France, Trade and Industry, asserting it represents nearly all of Russia's industry and commerce, has drawn up a resolution approving the note which Secretary of State Hughes sent to Soviet Russia in reply to the request that the United States open trade relations with Russia. The resolution also condemns the Anglo-Russian trade agreement, which it describes as a temporary agreement carrying only secondary advantages in commercial dealings "to the detriment of the vital interests of a great country."

Contrasted with this act, the resolution says, Mr. Hughes's note "appears like a ray of light." The American people, it adds, appreciate the real Russian democracy. The American Secretary's note establishes firmly and unalterably the only point of view which can be accepted by the Russian people—"a resurrected people who remember with profound gratitude those who, in their distress, treated them with humanity, and honestly recognized that they had been down-trodden."

Trade With Soviet Opposed

New York Russian Socialists Say It Would Only Help Red Rule

The Committee on Resolutions of the United Russian Socialists of New York yesterday issued a declaration opposing any trade agreement with the Soviet government of Russia. The latest proposal by the Bolsheviks to the United States government to resume trade is interpreted exclusively as a desire of the Bolsheviks to bolster up their political prestige among the people.

"We are opposed to any trade agreement with the Bolsheviks," A. Raskin, secretary to the association said, "believing that while such an agreement is of little practical value for the foreign countries and the Russian people, it tends to galvanize the Bolshevik rule at the very moment it is nearing its end."

Italy Expects to Sign Red Trade Treaty Soon

ROME, April 2.—Announcement was made in the Senate to-day by Count Sforza, the Foreign Minister, that the government hoped soon to sign a commercial agreement with Russia. But it was intended, he added, to see that the clause prohibiting political propaganda was strictly observed. He believed it impossible to restore normal conditions in Europe while Russia was ignored.

Packing House Strike Settled

CHICAGO, April 2.—The strike of 1,300 employees of the Independent and William Davis Packing companies at the Union Stockyards was settled to-day by Judge Alschuler, arbitrator. The men will go back to work Monday, and the question of seniority rights of those who quit work will be taken up by the arbitrator next week.
